<ul style="list-style-type: none">• Serving customers at the front and handling any customer queries or complaints• Maintaining store cleanliness and performing stocktake regularly.		

Personal / Uni Projects

Personal Portfolio Website

- I designed a website that displays information about me, my interests and coding projects, adhering to responsive design so that the website looks good and renders well on all screen sizes.

GameGalaxy

- Using **ReactJS**, built a web-based application that has a series of simple and fun mini-games such as Tic-tac-toe, Guess-the-Country and a sliding image puzzle.

LurkForWork

- Using **JavaScript**, **HTML** and **CSS**, built the frontend for "LurkForWork", which imitates LinkedIn. Tasked with implementing the expected features and behaviors, accounting for mobile responsiveness, and ensuring the website is easy to use and navigate.

UNSW Seams

- In a team of 5, we worked on the backend development of a web-based messaging app similar to Microsoft Teams using **Python**. The project involved implementing HTTP Flask server and going through the SDLC steps such as requirements analysis, implementing and testing our backend, design and deploying backend to cloud.

Skills

- C, Python, Java, HTML, CSS, JavaScript, React, TypeScript, SQL, Prolog, Git
